 - + Total number of employees: As of 31/03/2026, the Company has 112 people.

II. Accounting period and accounting monetary unit

SBS SECURITIES JOINT STOCK COMPANY

No. 40, Pham Ngoc Thach Street, Xuan Hoa Ward,, Ho Chi Minh City

1. Accounting period

Annual accounting period commences from 1st January and ends on 31st December.

2. Accounting monetary unit

Monetary unit used in accounting is Viet Nam Dong (National symbol is “đ”; International symbol is “VND”)

III. Accounting standards and Accounting system

1. Accounting System

The Company applies the Accounting Regime issued according to Circular No. 210/2014/TT-BTC dated December 30, 2014 of the Minister of Finance on Accounting Instructions applicable to Securities Companies, Circular No. 334/2016/TT-BTC dated December 27, 2016 of the Minister of Finance on Amending, Supplementing and Replacing Appendices 02 and 04 of the Circular. 210/2014/TT-BTC dated December 30, 2014.

2. Announcement on compliance with Vietnamese standards and accounting system

The company applies Vietnamese Accounting Standards and supplement documents issued by the State. Financial statements are prepared in accordance with regulations of each standard and supplement documents as well as with current accounting system.

IV. Accounting policies

1. Recognition of cash and cash equivalents

Record capital in cash

Cash and cash equivalents comprise cash on hand, cash in banks and short-term, highly liquid investments with an original maturity of less than three months that are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value.

Deposits of the Company for investment in securities trading (presented in expenses other than the statement of financial position (off-balance sheet)).

2. Principles and methods of accounting for financial assets recorded through profit and loss, held to maturity investments, loans and receivables, available for sale financial assets, financial liabilities

(a) Principles of financial asset classification

Fair value through profit or loss financial assets (FVTPL)

Financial assets are classified according to FVTPL when those financial assets are held for the purpose of buying and selling in the financial market through research and analysis activities with the expectation of profit.

Fair value through profit or loss financial assets (FVTPL) is a financial asset that meets one of the following conditions:

(i) Financial assets are classified as held for trading. A financial asset is classified as held for trading if:

- Purchased or created primarily for the purpose of resale/repurchase in the short term;
- There is evidence of trading for the purpose of short-term profit; or
- It is a derivative instrument (except for derivatives designated as a financial guarantee contract or an effective hedging instrument).

(ii) At the initial recognition, it is determined that this financial asset is classified in the group measured through profit or loss. This

SBS SECURITIES JOINT STOCK COMPANY

No. 40, Pham Ngoc Thach Street, Xuan Hoa Ward,, Ho Chi Minh City

- It eliminates or significantly reduces inconsistencies in recognition or measurement that may arise from valuing assets or recognizing profits or losses on different bases; or
- A group of financial assets is managed, and its performance is evaluated on a fair value basis in accordance with the Company's risk management policy or investment strategy.

Fair value through profit or loss financial assets (FVTPL) are recorded at actual purchase price (excluding purchase costs such as brokerage fees, transaction fees, and bank fees).

Purchase costs of Fair value through profit or loss financial assets (FVTPL) are recorded as transaction expenses for financial asset purchases in the Income Statement as soon as they are incurred.

At the end of the accounting period, Fair value through profit or loss financial assets (FVTPL) in the financial asset portfolio must be revalued at market price or fair value (in cases where no market price is available).

Decreases in value due to the revaluation of Fair value through profit or loss financial assets (FVTPL) are reflected in the line item "Decrease in revaluation of FVTPL financial assets." Increases in value due to the revaluation of FVTPL financial assets are reflected in the line item "Increase in revaluation of FVTPL financial assets." The increase or decrease in value from revaluation of FVTPL financial assets determines the unrealized profit or loss for the accounting period.

When selling Fair value through profit or loss financial assets, the "Purchase price" of FVTPL financial assets in the sold financial asset portfolio is determined using either the weighted average method at the time of sale or the weighted average at the end of the trading day.

When selling financial assets that are not classified as FVTPL financial assets, the Company reclassifies these financial assets as financial assets recognized through profit or loss. The treatment of revaluation differences currently tracked in the Statement of Financial Position under the item "Revaluation differences of assets at fair value" will be recorded in the Income Statement on the reclassification date of the sold financial assets.

For Fair value through profit or loss financial assets (FVTPL) upon maturity (if any), they must be reclassified as receivables and provisioned as doubtful debts (if applicable).

Held to maturity financial assets (HTM)

Are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Company has the positive intention and ability to hold to maturity, except:

- Non-derivative financial assets that at the time of initial recognition were classified by the Company as being recognized at value through profit/loss (FVTPL);
- Non-derivative financial assets have been classified by the Company as available for sale (AFS);
- Non-derivative financial assets meet the definition of loans and receivables.

Held to maturity financial assets (HTM) are initially measured at cost, including transaction costs directly incurred from purchasing these financial assets.

After initial recognition, held to maturity (HTM) financial assets are determined at amortized cost using the effective interest rate method.

The amortized cost of HTM financial assets is determined by the initial recognized value of the financial asset, minus principal repayments, plus or minus the cumulative amortization of the difference between the initial recognized value and the maturity value using the effective interest method, and minus any impairment allowances or uncollectible amounts (if applicable).

The effective interest method is a method of calculating the amortized cost of interest income or interest expense for the relevant period of a financial asset or a group of held to maturity financial assets (HTM).

The effective interest rate is the rate that exactly discounts the estimated future cash flows to be paid or received over the expected life of the financial instrument, or a shorter period if applicable, to the net present carrying amount of the financial asset or financial liability.

At the end of the accounting period, held to maturity (HTM) investments are evaluated and recognized for potential impairment at the time of preparing the Statement of Financial Position. Provisions for impairment of HTM investments are recorded in the Income Statement.

Loans

Are non-derivative financial assets with fixed or determinable payments and not listed on a stock exchange.

Types of loan commitments made:

SBS SECURITIES JOINT STOCK COMPANY

No. 40, Pham Ngoc Thach Street, Xuan Hoa Ward,, Ho Chi Minh City

- Margin trading contract;
- Contract for advance payment of securities.

After initial recognition, loans are determined at amortized cost using the effective interest rate method, except for: loans for financial assets recorded at fair value through profit/loss; financial liabilities arising from the transfer of a financial asset that does not qualify for derecognition or where appropriate under the relevant continuing provisions; financial guarantee contracts.

As of the financial statement date, if there is any evidence of impairment in the loan financial asset group, the Company will recognize an impairment provision in the Income Statement.

Available for sale financial assets (AFS)

Are non-collateral financial assets that are determined to be available for sale or are not classified as:

- Loans and accounts receivable;
- Held to maturity investments;
- Fair value through profit or loss financial assets.

Financial assets are invested by the Company but have no short-term investment goals and even long-term goals have not been determined. Therefore, this is a limited type of financial asset classified in the Company's operations.

When selling available for sale financial assets AFS must reclassify them to the FVTPL financial asset group.

Available for sale financial assets AFS are initially recorded at cost (purchase price plus transaction costs directly arising from the purchase of the financial assets). After initial recognition, Available for sale financial assets AFS are recorded at fair value.

At the end of the accounting period, the Company re-evaluates the value of Available for sale financial assets AFS in the Securities Company's Financial asset list at market price or fair value (in case there is no market price).

The difference due to the revaluation of available for sale financial assets (AFS) at fair value compared to the previous year is reflected in the item "Gains/(Losses) from the revaluation of available for sale financial assets" under Other Comprehensive Income in the Income Statement.

All gains or losses arising from an available for sale financial asset (AFS) when measured at fair value shall be recognized directly in equity (Other Comprehensive Income) through recognition in the Statement of Changes in Equity, except for impairment losses on available for sale financial assets. Such recognition shall continue until the financial asset is derecognized. At the time of derecognition, any previously accumulated gains or losses reflected in equity shall be recognized in the Income Statement as reclassification adjustments. However, interest income calculated using the effective interest method shall be recognized in profit or loss (in accordance with the Revenue Standard). Dividends received from "available for sale" equity instruments shall be recognized in profit or loss when the entity's right to receive the dividend is established (in accordance with the Revenue Standard).

At the date of the statement of financial position, the Company also evaluates whether there is objective evidence that available for sale financial assets AFS are impaired. Increases or decreases in the reserve account balance are recorded in the Income Statement under the item "Provision expenses for financial assets, handling of losses on doubtful receivables and impairment losses on financial assets and borrowing costs of loans".

(b) Principles for revaluation of financial assets

The fair value/market value of financial assets is determined as follows:

- The market value of securities listed on the Hanoi Stock Exchange (HNX) and Ho Chi Minh City Stock Exchange (HOSE) is the closing price on the most recent trading day up to the valuation date.
- For securities of companies not listed on the stock exchange but registered for trading on the Unlisted Public Company Market (UPCOM), the market value is determined as the closing price on the most recent trading day up to the valuation date.
- For listed securities that are delisted, suspended, or have ceased trading from the sixth trading day onward, the actual value of the securities is their book value as of the most recent financial statement date.

SBS SECURITIES JOINT STOCK COMPANY

No. 40, Pham Ngoc Thach Street, Xuan Hoa Ward,, Ho Chi Minh City

- For unlisted securities and securities not registered for trading on the Unlisted Public Company Market (UPCOM), the securities' value used as a basis for revaluation is the price obtained from reference information sources that the Company considers to reflect the market value of these securities.

Securities without reference prices from the above sources will be assessed for potential and extent of impairment based on a review of the issuer's financial condition and book value as of the valuation date.

The Company makes provisions for devaluation of investments made at the end of the year specifically as follows:

Provisions are made for held to maturity (HTM) investments when there is objective evidence indicating a potential inability to recover or uncertainty in recovering the investment, arising from one or more loss events that negatively affect the expected future cash flows. When there is evidence of impairment, the provision amount is determined based on the difference between the amortized cost and the fair value at the valuation date.

- Provisions for loans are made based on estimated losses, calculated as the difference between the market value of the securities used as collateral for the loan and the outstanding loan balance.
- Provision for other long-term investments: If the investment is in listed shares or if the fair value of the investment can be reliably determined, the provision is made based on the market value of the shares. If the fair value of the investment cannot be determined at the reporting date, the provision is based on the financial statements at the time the provision is made by the investee.

3. Principles for recording tangible fixed assets and intangible fixed assets

Tangible fixed assets and intangible fixed assets are recorded at their initial value. During use, tangible fixed assets and intangible fixed assets are recorded at cost, accumulated depreciation and residual value.

Depreciation is calculated using the straight-line method. The depreciation period is estimated as follows:

- | | |
|---|--------------|
| - Machine, equipment | 03 - 07 year |
| - Transportation equipment | 06 year |
| - Management software, stock trading software | 03 - 06 year |
| - Other fixed assets | 04 year |

4. Principles for recording and presenting short-term and long-term deposits and deposits

Short-term and long-term deposits and deposits reflect the Company's deposits and deposits in cash with subjects in the Company's operations in accordance with current relevant legal regulations. Deposits and deposits are not part of the Company's assets. The Company must have separate management responsibilities from the Company's cash assets.

5. Principles and methods of accounting for short-term and long-term receivables

5.1. Principles and methods of accounting for financial assets receivables

Receivable are monitored in detail by maturity receivable, objects to be recovered and the type of original currency receivables, and other factors under the management of the Company.

(a) Receivables from sale of financial assets

Reflects the entire value receivable when selling financial assets in the Company's financial asset portfolio (not through the Stock Exchange), including the maturity value of financial assets or liquidation of these financial assets.

(b) Receivable and accrual of dividends and interest on financial assets

Reflects all receivables and accrual of dividends and interest from financial assets in the Company's financial asset portfolio.

5.2. Principles and methods of accounting for other receivables

SBS SECURITIES JOINT STOCK COMPANY

No. 40, Pham Ngoc Thach Street, Xuan Hoa Ward., Ho Chi Minh City

Other receivables include non-commercial receivables, not related to purchase and sale transactions of goods and services.

6. Principles and methods of accounting for short-term and long-term liabilities

Liabilities are tracked by payment term, payable object, payable currency and other factors according to the Company's management needs.

6.1. Principles and methods of accounting for securities trading activities

Reflects the payment status of fees for business activities and securities services to the Stock Exchange and Vietnam Securities Depository Center (VSD), payable to the Company's securities issuance agent.

6.2. Principles and methods of accounting for taxes and amounts payable to the State

Current and prior year tax assets and liabilities are determined by the expected amounts payable to (or recoverable from) the tax authorities, based on the tax rates and tax laws effective as of the end of the accounting period.

6.3. Principles and methods of accounting for short-term and long-term payable expenses

The Company's payable expenses include prepayments for securities transaction costs, custody services, transmission lines and other payable expenses.

Accrued expenses are expenses that have not yet occurred but are recorded in the production and business expenses for the period to ensure that when these expenses are incurred, they do not cause sudden fluctuations in production and business costs. This approach aligns with the matching principle between revenue and expenses. When these expenses actually occur, if there is a discrepancy with the accrued amount, accounting will adjust by recording an additional expense or reducing the expense corresponding to the difference.

The accrual of expenses into production and business costs during the period is calculated rigorously, with reasonable and reliable evidence for the expenses to be accrued. This ensures that the accrued expenses recorded in this account align with the actual expenses incurred.

6.4. Accounting principles and methods for recording payables and other payables

Other payables include amounts payable that are non-commercial in nature and not related to transactions involving the purchase, sale, or provision of goods and services.

7. Accounting principles and methods for recording equity of securities companies

7.1. Principles for recording owner's investment capital

Owner's equity is recognized based on the actual capital contributed by the owner.

7.2. Principles for recording securities company profits

Undistributed profits include realized and unrealized profits.

(a) Principles for recording realized profits

Realized profit of the accounting period is the difference between total revenue and income and total expenses included in the Company's performance report, in addition to profits and losses due to revaluation of financial assets that have been recorded in unrealized profits.

(b) Principles for recording unrealized profits

Unrealized profit of the accounting period is the difference between the total value of reassessed profits and losses of Fair value through profit or loss financial assets or other financial assets included in the profit and loss report of the Income Statement under the Company's financial asset portfolio.

7.3. Principles of profit distribution of securities companies

The Company's undistributed realized profits accumulated as of the end of the previous year are the basis for distributing profits to owners. Unrealized profits as of the end of the previous year do not form the basis of distribution to owners.

The amount of profit used for distribution to owners must be minus the amount of accumulated realized losses from the beginning of this period and the amount of unrealized losses accumulated up to the time of distributing profits to owners. The distribution of the Company's profits to owners must be clear, transparent and in accordance with the provisions of the Law on Enterprises, Securities and other current laws relevant to securities companies, Charter of securities companies, and Resolutions of the General Meeting of Shareholders. Realized profits are distributed to capital contributing members or shareholders after deducting tax obligations calculated on the income received.

8. Accounting principles and methods for recording securities company revenues and income

Revenue from service provision

When the outcome of a transaction involving the rendering of services can be estimated reliable, revenue associate with the transaction shall be recognised by reference to the stage of completion of the transaction at the end of reporting period. The outcome of a transaction can be estimated reliable when all the following conditions are satisfied:

- The amount of the revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the entity;
- The stage of the completion of the transaction at the end of the reporting period can be measured reliably; and
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliable.

The stage of the completion of the transaction may be determined by surveys of work completed methods.

Income from securities trading

Income from selling FVTPL proprietary financial assets is determined as the difference between the selling price and cost price according to the number of FVTPL financial assets sold. Income from the sale of financial assets is realized income.

Income arising from self-trading financial assets FVTPL, HTM, and loans includes: loan interest arising from loans in accordance with the provisions of the Securities Law; Dividends and profits arising from stocks and bond interests; Interest arising from fixed deposits.

Dividends and distributed profits arising from financial assets in the Company's investment portfolio: FVTPL, HTM, AFS are recorded when the company is entitled to receive dividends from established stock ownership.

9. Principles for recording financial revenue and financial operating expenses

Financial revenue includes:

- Revenue from bank deposit interest is not fixed

Financial operating costs include:

- Interest expense

10. Principles for recording securities company management costs

Expenses are recognized when they have the potential to reduce economic benefits at the time they arise or can be determined with certainty, regardless of whether they have been paid or not.

SBS SECURITIES JOINT STOCK COMPANY

No. 40, Pham Ngoc Thach Street, Xuan Hoa Ward,, Ho Chi Minh City

11. Current principles and methods for recording corporate income tax expenses**Current corporate income tax expense**

Current corporate income tax expense is the amount of corporate income tax payable counted on taxable income in the period and prevailing tax rate.

Deferred income tax expense

Deferred corporate income tax expense is the amount of corporate income tax that will have to be paid in the future arising from:

- Record deferred income tax payable during the year;
- Reversal of deferred tax assets recognized from previous years.

12. Other accounting principles and policies**12.1. Basis of the Financial Statement**

The financial report is presented according to the historical cost convention.

Financial statements of the company are established on the basis of the transactions and which is recorded at the Company.

12.2. Related parties

Enterprises and individuals that directly or indirectly through one or more intermediaries, have control on or are under control of the Company, or are under common control with the Company, including parent companies, subsidiaries and associates are related parties. Associates and individuals that directly or indirectly hold voting right of the Company and have a significant impact on the Company, key management personnel including Board of Directors and employees of the Company, closed family members of these individuals or these associates or companies associated with these individuals are also considered as related parties.

In considering each relationship of related parties, it is necessary to pay attention to the nature of the relationship, not only its legal form.

The after-tax profit in the Q1/2026 financial report shows a loss, with the loss decreasing by over 10% compared to the same quarter of the previous year. The reasons for this are as follows:

In Q1 2026, despite market fluctuations, the company's total revenue increased compared to Q1 2025, and losses from the sale of financial assets in the proprietary trading segment decreased significantly compared to the same quarter of the previous year.

Therefore, while the company's business results did not meet expectations, they showed improvement, reducing losses compared to the same period.

Ref Explanations Relating To FSs_Q1_2026

SOCIALIST REPUBLIC OF VIETNAM
Independence – Freedom – Happiness

-----000-----

Ho Chi Minh City, April 20th, 2026

**To: State Securities Commission
Vietnam Stock Exchange
Hanoi Stock Exchange**

SBS Securities Joint Stock Company (“SBS”) would like to report to the State Securities Commission and the Stock Exchanges as follows:

The after-tax profit in the Q1/2026 financial report shows a loss, with the loss decreasing by over 10% compared to the same quarter of the previous year. The reasons for this are as follows:

In Q1 2026, despite market fluctuations, the company's total revenue increased compared to Q1 2025, and losses from the sale of financial assets in the proprietary trading segment decreased significantly compared to the same quarter of the previous year. Therefore, while the company's business results did not meet expectations, they showed improvement, reducing losses compared to the same period.

SBS Securities Joint Stock Company respectfully submits this explanation to the Authorities regarding the above-mentioned contents.

Best Regards.
